## UNIQUE PLACES, TERROIRS AND WINES

---

*Grandes Pagos de España* is an association of wineries located all over Spain, representing the variety of Spanish wine producing regions.

As *Grandes Pagos de España*, we defend and promote the *pago wine culture*, a special wine type that can only be drawn from a specific *terroir*:

- > We seek that each winery respects the origin and authenticity of its estate.
- > We make unique wines which faithfully reflect the soil and climate of each vineyard.
- > We guarantee outstanding quality wines.

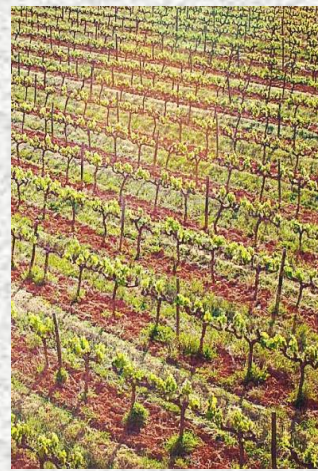

*Grandes Pagos España,  
wines with "The Expression of Terroir" in every bottle!*

## WHY IS OUR WINE UNIQUE?

- ✓ Pago is a Spanish word for a single vineyard whose **characteristics set it apart** from others in the same area. Since ancient times, it was remarked that grapes from some specific vineyards produced wines of greater character and charm than others, and it was also observed that orography, orientation, soils and subsoils were the key to that distinctiveness.
- ✓ All the grapes used to make this wine come from a **specific plot**.
- ✓ Pago single vineyard wines are made by employing an **integral quality system** which is applied from the work in the vineyard until the wine reaches the customer.

*Pago wine is the result of the essence of a territory and the passion of the people who produce it.  
An inimitable wine that can only be created by this unique combination.*

## WINERY DESCRIPTION

Located in Valdefinjas (Zamora), in the Northwest of Spain, Numanthia is a living tribute to the ancient city of Numancia, whose inhabitants chose death over the face of Roman invasion.

Numanthia vineyards have shown throughout the years the same resilience and tenacity: they have been able to resist the time passing, the extreme climate conditions but above all the Phylloxera plague which wiped out almost every vineyard in Europe in the 19th century.

Visiting Numanthia will offer you the chance to discover unique wines within the Toro region, with its special *terroir* and its native grape variety 'Tinta de Toro'.
